

Project: LoanGazeAI - Credit Risk Classification

Intelligent Loan Approval Prediction Through ML Gaze

Business Problem:

Develop ML models that can help the company for determining

1) Business problem understanding:

Dream Housing Finance company deals in all kinds of home loans. They have presence across the country after that company validates the customer's eligibility for loan.

Company wants to automate the loan eligibility process (real time) based on customer details.

These details are: Gender, Marital status, Education, Number of dependents, Income, Loan amount. The company has a dataset to identify the customer segments that are eligible for loan amount so that they can
